REPORT.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

*Poor Law Board, Whitehall,
24th May 1860.*

MAY IT PLEASE YOUR MAJESTY,

We, the Poor Law Board, beg leave to present to Your Majesty the following Report of our proceedings during the past year.

We are happy to be able to state, that since the Poor Law Amendment Act came into operation the sum annually expended for "Relief to the Poor" has very largely decreased, and that this expenditure is in a diminishing ratio when compared with the population and wealth of the country.

Expenditure
for Relief
before and
after the
passing of
the Poor
Law Amend-
ment Act.

The Poor Law Amendment Act came into operation in the autumn of 1834. During the twenty-two years preceding, that is, from 1813 to 1834, the aggregate sum expended for the relief of the poor in England and Wales was 143,110,817*l.*, a sum equivalent to an annual average disbursement of 6,505,037*l.* In the subsequent twenty-five years, that is, from 1835 to 1859, the aggregate sum expended was 129,226,833*l.*, a sum equivalent to an annual average expenditure of 5,169,073*l.* Hence, during a quarter of a century there has been an average annual decrease of 1,335,964*l.*, and a total decrease during the twenty-five years of 33,399,100*l.*

Absolute
Decrease.

This saving has been effected notwithstanding the heavy additional burdens which have been imposed upon the poor rates, and charged in the item "relief to the poor," since 1834. Two of these burdens, the cost of the new union workhouses and the salaries of the paid union officers, have not averaged less than 800,000*l.* a year; 200,000*l.* a year for the former, and 600,000*l.* for the latter; being a total amount of 20,000,000*l.* for the two charges together during the twenty-five years in question.

The diminution of the law charges, and of the expenses of the removal of paupers, since 1834, has been a marked feature in the recent administration of the Poor Law. In the years 1833 and 1834 these expenses averaged 256,508*l.* per annum; in the four following years they averaged 148,973*l.* In subsequent years

these items declined still more; and according to the latest returns, namely, those of 1857, the amount was only 80,733*l.*, or less than *one third* of the average expenditure of 1833 and 1834.

Relative
Decrease.

The decrease, if viewed in relation to the population, is equally satisfactory.

The average annual population from 1813 to 1834 was 12,583,000; the rate per head on that number for relief was 10*s.* 4*d.*; the average population from 1835 to 1859 was 17,087,297, and the rate per head 6*s.* 0½*d.*, or a decrease of 4*s.* 3½*d.* per head; that is, 42 per cent. Had the expenditure from 1835 to 1859 remained at 10*s.* 4*d.* per head, the total sum expended in relief during the last quarter of the century would have been 220,705,900*l.*, instead of 129,226,833*l.*, or *ninety-one millions* more than has been actually expended.

The decrease in relation to the wealth of the country, so far as any comparison can be instituted, is also remarkable. No strict comparison between the expenditure for relief and the income of the country is practicable, owing to the fact that no accurate statistics exist of the annual profits and earnings of the people. There are, however, one or two important exponents of the wealth of the community with which the relief expenditure may be compared. The first is the annual value of real property assessed to the property tax. The property tax assessment (under Schedule A.) falls, very nearly, upon the same property as that upon which the poor rate is levied. In 1815 the assessment in question was 51,898,423*l.*; the average expenditure for relief in the three years 1814, 1815, and 1816 was 5,812,755*l.*, which was equal to a rate of 2*s.* 3*d.* in the pound on the property tax assessment. In 1857 the annual value of real property was 103,496,253*l.*; the average expenditure for relief in the three years 1856, 1857, and 1858 was 5,778,662*l.* or, 1*s.* 1½*d.* in the pound. It will be thus seen that a decrease of 50 per cent. had taken place in the latter as compared with the former period.

The second mode of instituting a comparison is the declared value of imports and exports of the United Kingdom, by which the expansion of trade, commerce, and manufactures is indicated. During the five years ended on the 31st December 1833 the declared value was on the average 83,567,482*l.*; the average expenditure for relief during the five nearest parochial years, that is, from 1830 to 1834, was 6,754,591*l.* Had this sum been raised by a tax upon the imports and exports it would have required a levy of 1*s.* 7½*d.* in the pound. But during the five years ended with 1858 the average declared value had risen to 295,718,831*l.*; the average relief of the five years ended at Lady-day 1859 was 5,845,980*l.*, or 4¾*d.* in the pound only on the declared value of the imports and exports. Regarded through this medium, the poor-rate expenditure has decreased upwards of 75 per cent.

A minor but perhaps not less interesting exponent of the country's wealth is found in the amount of deposits in the savings banks of England and Wales.

In the three years 1832, 1833, and 1834 the average amount of deposits and interest in the savings banks of England and Wales was 15,697,354*l.*; the average relief in the three parochial years 1832, 1833, and 1834 was 6,715,008*l.* Thus, for 1*l.* annually spent in relief, 2*l.* 6*s.* 9*d.* had been accumulated in the savings banks. But in the three years 1855, 1856, and 1857 the deposits and interest had risen to an average of 36,830,795*l.*, and the relief for the three parochial years 1855, 1856, and 1857 was on the average 5,931,014*l.*; so that for 1*l.* yearly paid in relief 6*l.* 4*s.* 2*d.* had been placed in the savings banks. The accumulated savings had gained upon the annual relief in a ratio nearly threefold.

A consideration of these facts and figures would appear to show conclusively that the expenditure for the relief of the poor is, as shown under the relations just adverted to, about two thirds less than it was previously to the passing of the Poor Law Amendment Act, and this decrease it will be remembered has taken place notwithstanding the large items of additional cost to which we have adverted.

We desire now to submit, as in former reports, statements showing the condition of pauperism during the past year.

The sum of 5,558,689*l.* was expended for the relief of the poor during the year which ended the 25th of March 1859, being a decrease of 319,853*l.* as compared with the sum expended during the preceding year.

Expenditure
for Relief
during the
Year ended
at Lady-day
1859.

The following Table shows the comparison of the expenditure of the years 1857-8 and 1858-9 :—

Years ended Lady-day.	Expended for Relief of the Poor in England and Wales.	Decrease in 1859, as compared with 1858.	Decrease per Cent.	Rate per Head on estimated Population.	Decreased Rate per Head.

1859	5,558,689			5 8¼	

Note.—The Summary of the Poor Rate Return inserted in the Appendix (page 44) sets forth the expenditure, the total of which is shown in the above Table, more in detail. This expenditure comprises, “in-maintenance,” column (*a*); “out-relief,” column (*b*); “maintenance of lunatics in asylums and licensed houses,” column (*c*); “workhouse loans repaid, and interest thereon,” column (*d*); “salaries and rations of officers,” column (*e*); “other expenses of or immediately connected with relief,” column (*f*). Those “other expenses” comprehend the cost incurred for emigration, for extra medical relief and fees, and for the burial of paupers, &c.

The rate per cent. of the increase and decrease respectively in the expenditure for relief, as regards each union-county in England and Wales, is as follows :—

In the following Table the expenditure per head on the population for the several years from 1834 to 1859 is given in a different form. The years are arranged according to the amount expended, beginning with the highest sum and ending with the lowest :—

The preceding statements, taken from the Annual Poor Rate Returns, have reference to the year ending at Lady-day in each case, and comprise the expenditure for all purposes connected with the relief of the poor in England and Wales.

The following statements show the amount expended for relief only, in 628 Unions and Parishes under Boards of Guardians (comprising a population of 16,529,865, census 1851), and afford the means of comparing the expenditure under that head for the years ending respectively on the 29th of September 1858 and 1859, as well as those ending on the 25th of March of the same years :—

Irremovable
Paupers.

The amount expended for in-maintenance and out-door relief to irremovable paupers during the year ended at Lady-day 1859, is shown in respect of each union (so far as the returns enable us to discriminate it, from the cost of the same items of relief incurred in regard to other paupers) at page 150 of the Appendix.

The unions making separate returns of this class of expenditure contain about *fifteen seventeenths* of the entire population. The figures in the following Table, have been abstracted from the Appendix to this and the four preceding annual reports.

The persons in receipt of relief in certain parishes incorporated under Gilbert's Act, or in single parishes still under 43d Elizabeth, (the population of such parishes being 423,627) are not included in the summaries given in this and the preceding page no returns having been received from them.

Estimate of the Pauperism of England and Wales.

We have, therefore, made an estimate of the numbers in receipt of relief in the places not included in the above summaries, based on the actual numbers in receipt of relief in the places which are included therein. The population of the unreturned places for which this estimate is made is 423,627 ;

while that of the returned places is 17,503,982. For the purpose, then, of showing the average numbers *at one time* in receipt of relief during the whole year, both in the unreturned and the returned places, we have taken the mean of the numbers in receipt of relief on the 1st of July and the 1st of January respectively.

The result of this estimate for each year from 1849 (being the first year for which it can be given) to 1859 appears in the following Table, which may be taken as exhibiting the pauperism of England and Wales.

* The Population for 1851 is that given in the Census ; that for the other years is estimated.

The decrease in the average number of paupers of all classes in receipt of relief at one time in 1859, as compared with 1849, is 20·5 per cent. ; and as regards able-bodied paupers the decrease in 1859, as compared with 1849, is 40·7.

The returns of pauperism in the Appendix at pp. 169-192 do not necessarily show the distinction which exists between the condition of the in-door and the out-door pauper.

The inmate of a workhouse is clothed, fed, and lodged, and has all his wants supplied in the establishment, at the exclusive cost of the rates.

The case is different, however, with the out-door pauper. He may occupy a house, and pay a rent for it. The relief, or rather assistance afforded to him, is generally in money or kind ; and is frequently only of a temporary character ; the occasion for requiring it being his own sickness, or that of some member of his family. Sometimes the assistance afforded is confined to medical relief alone ; or to providing an outfit and premium on the apprenticing of a child, or an outfit upon a child's entering into service.

Classifica-
tion of out-
door able-
bodied
Paupers.

There is also another point in connexion with the returns upon which it is desirable to prevent misapprehension. On reference to the return at page 184 it will be seen that there was a large number of able-bodied paupers relieved out of the work-house. In 629 unions returns are made to the Board according to the form prescribed by the General Order for keeping accounts, which reckons the children of able-bodied paupers residing with them in the number of the able-bodied. In these unions it appears that there were on the 1st of January 1860, 314,391 out-door able-bodied paupers, of whom

26,286 only were adult males.
85,151 „ „ females.
202,954 children under 16.

The proportionate numbers, therefore, may be taken as *one* adult man, *three* adult women, and *eight* children under 16 years of age.

Of the 26,286 adult males, it will be observed that 24,505 were relieved on account of *sickness, accident, or infirmity*; and that 1,687 were relieved on account of the want of work and other causes; and 94 only on account of sudden and urgent necessity.

The causes which brought these 314,391 cases upon the rates are specified in the annexed statement:—

Pauperism
in the
Metropolis.

The Metropolis has fully participated in the improved condition of the labouring classes which has distinguished the past year. The returns of pauperism show that a decrease in the numbers relieved has, with few exceptions, taken place in every week of the last year as compared with the corresponding week of the previous one. (See weekly returns, pp. 194-263.)

Comparing the last day of the last week of each quarter of 1858 and 1859 respectively, the following are the results as regards the Metropolis:—

	Number of Paupers relieved (exclusive of Lunatics in Asylums and Vagrants).			
	Lady-day Quarter.	Midsummer Quarter.	Michaelmas Quarter.	Christmas Quarter.
1858 . .	106,942	85,772	85,351	95,892
1859 . .	93,232	84,216	83,952	91,665
Decrease .	13,680 or 12·80 per Cent.	1,556 or 1·81 per Cent.	1,399 or 1·64 per Cent.	4,227 or 4·41 per Cent.

The last year closed with a smaller number of paupers on the relief lists than on the two previous years; for in 1857 the numbers were 101,938; in 1858, 95,892; and in 1859, 91,665; so that there is a decrease of 10·08 per cent. in the last year as compared with 1857.

Arranging the Metropolitan Unions into five districts, as shown in the Table at page 264, it will be observed that each district is marked by diminished pauperism.

The South District, which comprises all the Unions to the south of the Thames, does not exhibit results so favourable as the other parts of the Metropolis.

We have caused the lists of lunatics, idiots, and other persons of unsound mind chargeable to the poor rates on the 1st January 1859, to be tabulated. The importance of the information contained in the lists induced us to incorporate the Return with the series which we periodically present to Parliament under the title of "Poor Rates and Pauperism." It was published in October last as "Return (E)—Insane Paupers;" the principal summaries are reprinted at page 266 of the Appendix.

Insane
Paupers,
1st January
1859.

It appears from these that in 645 unions and single parishes under Boards of Guardians, there were 30,318 insane paupers, of whom 21,432 were lunatics and 8,886 idiots. The whole number of paupers, inclusive of the insane, was on the same day 867,543.

In regard to the sexes, it will be seen that 13,389 were males, and 16,929 females.

Insane Paupers.	Males.	Females.	Total
Lunatics - -	9,280	12,152	21,432
Idiots - -	4,109	4,777	8,886
Total - -	13,389	16,929	30,318

These paupers were maintained in the following establishments; or were lodged with strangers; or resided with their relatives; viz.—

- 14,481 in County or Borough Lunatic Asylums.
- 2,076 in Registered Hospitals, or in Licensed Houses.
- 7,963 in Union or Parish Workhouses.
- 906 in Lodgings, or Boarded Out.
- 4,892 Residing with Relatives.

The ages of the Insane and the supposed age of attack of the Lunatics are set forth, with other particulars, in the Appendix at page 266 *et seq.*

A statement will be found in the Appendix (page 290), showing the average number of children attending Workhouse Schools in England and Wales, as well as the number attending District Schools, during the half year ended at Lady Day 1859; and also the amount of money paid in each case, from the Parliamentary Grant, in respect of the salaries of teachers. The following is a summary of this statement:—

The average number of children in *Workhouse* Schools is 26,513; in 19 *separate* Union or *Parochial* Schools 4,381; and in 6 *District* Schools 2,682; making a total, as shown above, of 33,576 children under instruction. We are sensible, however, of the great advantages of separate and of *District* Schools, as compared with Schools forming parts of *Workhouses*; and we avail ourselves of every suitable opportunity for promoting the establishment of the former classes of schools.

We have received from our Inspector, Mr. Farnall, a brief report on the *District* and *Workhouse* Schools of the Metropolis. He observes,—

“ The marked decrease of pauperism, which is still progressing throughout the Metropolitan districts, will satisfactorily account to your Board for a proportionate diminution in the number of children receiving education in the *District* and *Workhouse* Schools.

“ It is shown at page 14 of your annual Report for 1858–59, that 6,900 children were then receiving a moral, mental, and industrial training in those establishments under efficient instructors, but there are now only 6,268 children being similarly educated.

“ The useful and suitable branches of industry, specified in my last report to your Board as being actively practised in the schools, are still closely pursued, and the number of children, who are thus instructed, has increased. There are at present 3,299 children being diligently trained in industry,

“ and I may add that music, to fit boys for the bands of the army or navy, has proved a singularly successful experiment.

“ During the year ended Christmas 1859, 382 children were sent to carefully selected places of service from the Central London, North Surrey, and South Metropolitan District Schools, and it will afford you great gratification to learn that an extremely small number of these children lost their situations through any misconduct of their own.

“ The managers of these valuable establishments have, I am assured, endeavoured at all times to conduct them with strict economy, and the accurate supervision which they have instituted is now securing for the ratepayers and the children the maintenance of a careful and salutary system of expenditure; there was a marked decrease of outlay last year, as compared with that of the year ended Lady-day 1856, when it became necessary for me to bring this essential subject under the consideration of the managers.

“ In the cost of the rations of the officers of the three District Schools there has been a saving of 29·1 per cent., which was mainly effected by a wholesome reformation in the management of the Central London Schools; in the North Surrey Schools there has been a saving of 23·0 per cent. on the annual cost of maintaining and clothing each child; in the South Metropolitan Schools 9·1 per cent. was so saved; and in the Central London Schools 20·5 per cent. was saved on a similar expenditure.

“ But, notwithstanding the important saving thus satisfactorily and rapidly accomplished, the average annual cost for the maintenance and clothing of each child in the three District Schools for the year ended September 1859 was (independently of all common charges) 8*l.* 9*s.* 9*d.* or 3*s.* 3¼*d.* per week; the saving, therefore, great as it has been, admits, as it seems to me, of a still further extension.”

The great increase of the population in the Port of Hartlepool and its neighbourhood in the county of Durham during the last few years rendered the arrangements in force for the relief of the poor therein inconvenient and unsatisfactory. We, therefore, deemed it necessary to divide the Stockton Union, which previously comprised that port, and to form a new Union termed the Hartlepool Union. The order for its formation came into operation on the 25th of March 1859; the particulars are shown in the Appendix, page 312.

Formation
of the
Hartlepool
Union.

The number of persons who have been assisted to emigrate under the orders of the Board during the last year was only 95, and though we are aware of some other instances where aid was given without our order, and therefore irregularly and illegally, still we must consider that at present emigration cannot be considered as any practical remedial measure for the repression of pauperism.

Emigration.

Vaccination. A summary of the Returns received from the several Unions and Parishes in England and Wales, of the number of persons vaccinated by the public vaccinators during the year ended at Michaelmas 1859, shows the number to have been 455,349, out of which the vaccination has been successful in 445,020 cases. See App. page 315.

Workhouses built or altered. We have affixed our seal to the plans of new workhouses for the following Unions: viz., East Grinstead for 260 inmates, Helmsley for 54, Penistone for 120, Rochdale for 130, Swansea for 350, and Bristol* for 1,160 inmates; and to plans of school-houses for the City of Exeter and for the Portsea Island Union; and also to plans for the enlargement or improvement of the workhouses of the following Unions and Parishes: viz., Alston with Garrigill, Brentford, Bury St. Edmunds, Cardiff, Colchester, Cosford, East Hampstead, Greenwich, Kingston (Surrey), Keynsham, Lambeth, Manchester and for its School at Swinton, Rochdale, Romford, Sheffield, Saint Leonard Shoreditch and for the School of the same Parish at Brentwood, Southampton, Ticehurst, Totnes, Torrington, Uckfield, Warwick, Wem, and Windsor. We have also affixed our seal to plans of new Board Room Offices for the Township of Leeds, and for the Hamlet of Mile End Old Town.

Religious Instruction of orphan Children in Work-houses. We have to observe that on the 23d of August last we issued an order upon the subject of the religious instruction of orphan children in Workhouses who have no known or ascertained god-father or godmother.

The order in question was framed simply with a view of extending to such children the same amount of religious freedom as is secured to other children in the Workhouse by the express provisions of the Act 4 & 5 Will. 4. c. 76. s. 19. A copy of the order in question, together with an explanatory letter, is inserted in the Appendix, page 29-34.

Qualification of Medical Officers. The establishment of the General Medical Council and the system of registration for all members of the medical profession, together with the alteration of the law in reference to the qualification of such persons to practise in all parts of Her Majesty's dominions, enabled us to reconsider the General Orders of the Board regarding the qualification of medical officers for unions and parishes. We, therefore, framed another order requiring, in general terms, that all medical officers besides being registered should possess a legal qualification to practise both medicine and surgery in England and Wales, issuing from some competent legal authority in Great Britain or Ireland.

* The plans approved of in 1856 for enlarging the Bristol Workhouse have been abandoned.

In the circular letter which accompanied the order we pointed out the several public bodies in England, Scotland, and Ireland who were authorized to confer such qualifications, according to the advice with which the General Medical Council at their meeting in August last had favoured us upon our request.

Some other bodies have represented to us that they are also empowered to grant similar qualifications, but as we had not been able to obtain further advice from the General Medical Council, whose next sitting will not take place until next autumn, we did not think it correct to insert the names of these bodies in that letter. At the same time, however, we intimated that, though not mentioned therein, their diplomas or licences, if legally sufficient, would be available under the terms of the General Order.

A copy of this order and of the circular letter which accompanied it will be found in the Appendix, page 35-40.

In our last report we stated that we had issued orders to four boards of guardians in the metropolis requiring them to appoint auditors, and that three of them had accordingly made appointments of such officers; but that the guardians of the poor of the parish of Saint James Westminster had declined to do so. We were, therefore, compelled to take proceedings by an application to the Court of Queen's Bench for a mandamus requiring them to make the appointment. The writ was granted, and a return having been filed in answer, that Court after argument gave judgment in favour of the Crown, and the defendants having brought a writ of error, the Court of Exchequer Chamber in the sittings after Trinity Term last affirmed that judgment. The guardians have since appointed an auditor.

We have not in our recent reports referred specially to what may be termed the legal branch of poor law administration; and we therefore propose briefly to state the nature of the legal and judicial functions exercised by the Poor Law Board.

Legal
Branch
of Poor Law
Adminis-
tration.

The cases in which the Board exercise a judicial function fall chiefly within the following classes:—

1. Questions relating to the settlement, removal, or chargeability of paupers; which may be brought before the Board in two different ways.

First, they may be submitted, by the mutual agreement of the parties interested, for the decision of the Board, either under the Act 11 & 12 Vict. c. 110. s. 4., or under the later Act, 14 & 15 Vict. c. 105. s. 12. If this be done, we require the parties to agree upon the facts, and also upon the precise question which they wish the Board to decide, and to set them out in a statement jointly signed.

But, secondly, if the parties cannot agree upon the facts, the question may be raised before the Board by way of appeal against the auditor's decision with respect to the allowance or disallowance of the charge for the pauper's relief in the union accounts. In such a case, the auditor states his reasons in the book of account, and if, for the purpose of determining the appeal, the Board find it necessary to investigate the facts, they do so either by correspondence or (as has occurred in some few instances) by means of an examination on oath, conducted by the inspector.

The aid which is rendered to the guardians, overseers, and ratepayers by the Board in the determination of these cases, which are very numerous, and of daily occurrence, is important, both in facilitating the administration of the law, and in saving expense.

All the questions thus raised, whether of disputed fact or of doubtful law, are of a kind which would (or might) have been taken either to the quarter sessions or to the Court of Queen's Bench, if they had not been brought within the jurisdiction of the Board; and, consequently, if they were withdrawn from that jurisdiction, the parties would be again thrown back upon the tedious and costly litigation of the sessions or the superior court.

The beneficial effect of this exercise of the Board's jurisdiction may be in some degree indicated by the fact of the large diminution which has taken place in the number of cases of this kind brought before those Courts.

It is not easy to estimate the cost of the litigation involved in these cases; but we may state that the total expenditure out of the Poor Rate for law costs in the last year preceding the Poor Law Amendment Act (i. e. the year ended at Lady-day 1834) throughout England and Wales amounted to 258,604*l.*; whilst the expenditure for the same purpose in the year ended at Lady-day 1857 was only 80,733*l.*; showing a reduction of no less a sum than 178,000*l.* per annum, which is attributable, no doubt, in some degree, both to amendments in the law and to improvements in its administration, but also (and to a considerable extent) to the direct action of the Board, as well in determining judicially the cases within their jurisdiction as in affording legal advice generally when applied to by the guardians, overseers, and others.

2. Appeals against the decisions of the district auditors, in allowing, disallowing, or surcharging items in the union and parish accounts.

These appeals may be brought under 7 & 8 Vict. c. 101. ss. 35 and 36, and 11 & 12 Vict. c. 91. s. 4.; and they require the Board to consider two questions; first, whether the auditor's decision is lawful; and if it is, then, secondly, whether the circumstances are such as to justify the Board in remitting the surcharge or disallowance on equitable grounds.

There is an alternative right of appeal to the Court of Queen's Bench in these cases, as regards the lawfulness of the auditor's decision; but as the appeal to that Court necessarily involves considerable expense, and as the equitable jurisdiction of the Board, enabling them to relieve the appellant from the consequences of a lawful surcharge or disallowance, is not possessed by that Court, the appeals to it are very few, and nearly all the appeals against the auditor's decisions are in fact addressed to the Board.

3. Questions relating to the election of guardians, where the right of any elected guardian to act is disputed under 5 & 6 Vict. c. 57. s. 8.

In these cases the Board are called upon to investigate the facts (which they frequently do by means of an inquiry on oath, conducted by an inspector), and to decide the matter in dispute, with due regard both to the facts and to the law. There are generally several of these cases every year, and some of them of a very difficult and intricate character, especially as regards the facts and the evidence, as they usually involve much local excitement and ill-feeling.

Besides the cases thus directly dealt with under that Statute, the Board are frequently asked for their advice or opinion on questions connected with the election of Guardians, for the information or guidance of the various officers and persons interested; and they are also called upon to issue orders for the supply of vacancies, which often involve preliminary legal questions with regard to the occurrence of the vacancy and the propriety of issuing the order.

Besides those cases in which the Board act as a judicial tribunal, there is a variety of matters or occasions on which their legal advice or assistance is required or sought for by the persons engaged or interested in the practical administration of the law. Among these the following may be mentioned:—

1. Questions of all kinds relating to the interpretation and execution of the law, as well as of the orders of the Poor Law Commissioners and of the Poor Law Board, which are asked by guardians, overseers, union and parish officers, ratepayers, paupers, and others, where a dispute or a difficulty arises; and they form a large and important branch of the correspondence.

2. Various matters involving a mixture of law and administration, such as the orders which the Board are called upon to issue under the Vestries Act, 13 & 14 Vict. c. 57, the parochialization of extra-parochial places under 19 & 20 Vict. c. 10., the burial of the poor, vaccination, registration, the education of pauper children, the maintenance of pauper lunatics in asylums, and many others, amongst which must be included the cases occurring under the late Act for the payment of debts by boards of guardians, 22 & 23 Vict. c. 49; and the cases, which are of continual re-

currence, of costs of prosecutions by boards of guardians, as to which the 7 & 8 Vict. c. 101. s. 59. requires the Poor Law Board to direct the mode in which they shall be charged in the union accounts.

3. Amendments of the law and of the orders of the Poor Law Commissioners or Poor Law Board, which orders, being acts of subsidiary legislation with the force of statutes, form in fact part and parcel of the law.

4. Instructional circulars, expository of the law or of the course to be taken in carrying it into effect; such, for instance, as the circular of last year on the rating of tithes.

Audit of
Poor Law
Accounts.

We consider it desirable to refer upon the present occasion somewhat in detail to that branch of our administration which relates more strictly to the audit of the Poor Law expenditure.

Previously to the passing of the Statute 7 & 8 Vict. c. 101. in August 1844, each Board of Guardians elected its own auditor; and at that period there were 452 officers of that class.

The mode of proceeding and the practice of so large a number of auditors, although subordinate to statutory authority, and to the general regulations of the Board, exhibited great diversity. But little supervision could, comparatively, be exercised over them, and although they undoubtedly rendered great public service, yet it was evident that the system was susceptible of much improvement.

After the passing of that Statute, districts were formed, and an auditor was nominated and elected for each district.

The favourable anticipations of the results of this change were, we believe, fully realized; many illegal practices were then for the first time checked, the accounts were more strictly investigated, and a system of auditing the expenditure of the rates upon more uniform principles was gradually established.

In 1851 the Board deemed it necessary to bring more immediately under their control the manner in which the duties of district auditors were performed, and they then selected one of their inspectors whose attention was directed almost exclusively to the supervision of the proceedings of the auditors.

The district auditors are 49 in number. There are also 5 auditors for certain of the parishes in the Metropolis governed under Local Acts.

These 54 auditors audit the accounts of the collection and disbursement of all monies raised by means of the Poor Rate, whether actually expended in the relief of the poor, or for such other purposes as that rate may be lawfully applied to.

The sum thus raised and collected for the year ended at Lady-day 1859 was 8,434,788*l*.

The officers who are engaged in raising, collecting, or disbursing the poor rate are :—

Clerks of Unions (representing Boards of Guardians) -	653
Treasurers of Unions - - - - -	653
Masters of Workhouses - - - - -	713
Relieving Officers - - - - -	1,356
Collectors of Poor Rates, nearly - - - - -	5,000
Overseers of 14,600 parishes - - - - -	14,600

Giving a total of 22,975 officers who personally attend before the auditors each half-year, and submit their respective accounts for audit.

Each officer keeps a distinct set of accounts, in accordance with the regulations. The total number of sets of accounts is therefore 22,975.

The number of books of accounts kept and submitted to the auditors by each class of officers is as follows :—

Books kept by Union Clerks - - - - -	3,918
Books kept by Union Treasurers - - - - -	653
Books kept by Masters of Workhouses - - - - -	9,982
Books kept by Medical Officers of Workhouses - - - - -	713
Books kept by Relieving Officers - - - - -	6,780
Books kept by Collectors (nearly) - - - - -	20,000
Books kept by Overseers - - - - -	58,000

It follows that at least 109,546 distinct books of account are submitted to the auditors half yearly, or 219,092 annually.

The number of reports received by the Board from the auditors during the half-year ended at Lady-day last was as follows :—

Reports on Clerks' Books - - - - -	653
Reports on Masters' Books - - - - -	713
Reports on Relieving Officers' Books - - - - -	1,356
Reports of Disallowances, Surcharges, Balances, &c. - - - - -	653
Reports on Books of Collectors - - - - -	1,051
Reports on Books of Medical Officers - - - - -	200
Reports as to the Payment or Recovery of Money found due - - - - -	653
Reports on Bonds of Security - - - - -	653

If allowance be made for reports of a special character, it may be safely said that not less than 6,000 reports are made by the auditors half yearly, or 12,000 annually.

The reports upon "Union Officers' Books" show the state in which each book is presented to the auditor, and sets forth any defect, either in form or substance, that he may have observed when examining it.

The reports upon the "Books of Parochial Officers" show the imperfections noted by the auditor, as well as any neglect of the regulations on the part of the officers which may have attracted his attention.

The reports upon "Disallowances, &c." show what sums have been illegally expended, and what the auditor has to recover, if his proceedings be not reversed, or if the amount be not remitted by the Board.

The reports on "Recovery of Money" show what illegal expenditure has been repaid to the treasurer.

The reports on "Bonds" show whether the officers have given security, and whether proof has been produced that their sureties are living and solvent.

These reports lead to a very voluminous correspondence with the local boards, and with the union and parish officers. They necessitate special visits of inspection, and occasion formal inquiries into the manner in which the accounts are kept, and into the conduct of accounting officers.

Legislation. We have, lastly, to refer to the statute 22 Vict. c. 29. which
22 Vict. c. 29. continues the chargeability of irremovable poor upon the common
fund of the union until the 30th day of September next and to the
22 & 23 Vict. end of the then next session of parliament; and to the 22 & 23
c. 44. Vict. c. 44. which continued the Act for the exemption of stock
in trade from rating until 1st of October 1862, and thence to the
end of the next session of parliament.

22 & 23 Vict. The statute, 22 & 23 Vict. c. 49., has been passed in consequence
c. 49. of the decision of the Court of Exchequer Chamber in the late
case of "Waddington v. The City of London Union," reported
in 28 L. J. R. M. C. 113. & E. B. & E. 370., by which it was held
that boards of guardians could not make legal orders of contri-
bution upon the parishes in their unions for the payment of
debts previously incurred.

This statute contains provisions to define and limit the period during which debts thereafter incurred by boards of guardians or district boards of management may be paid, and it also makes special provision in respect of debts incurred before the passing of the Act.

Sect. 1. provides that in future every debt, claim, or demand shall be paid within the half year in which it shall have been incurred or become due, or within three months after the expiration of such half year, *but not afterwards*, power being given to the Poor Law Board to extend the time for a period not exceeding twelve months after the date of such debt, claim, or demand.

Sect. 2. provides for the payment of debts incurred before the passing of the Act.

Sect. 3. provides for the payment of loans where the poor rates have been charged by way of security. Sect. 4. refers to cases where actions or other proceedings are brought against boards of guardians or boards of management; and sect. 5. enables the payment of attorneys' bills incurred by such guardians or

managers in the course of any action, suit, or other proceeding to be postponed until the final determination thereof.

Sect. 6. provides that no call or order for contribution, nor any call made to meet such call or order, shall be deemed to be illegal because it is made to pay any debt the payment whereof is authorized by that Act, or because it includes a balance due from any parish at the time when the half-yearly accounts were made up and balanced; and it provides also that when the fund out of which any such debt should have been discharged shall have been already paid by any parish to the board of guardians, and shall not have been applied for that purpose, any funds required to be contributed to discharge such debt shall be levied on each parish in the union in proportion to the rateable value of each such parish.

All which we humbly present to Your Majesty.

C. P. VILLIERS,
President.

APPENDIX.

No. 1.

RELIGIOUS INSTRUCTION OF ORPHANS IN WORKHOUSES.—GENERAL ORDER
of the POOR LAW BOARD.

To the GUARDIANS of the POOR of the several UNIONS named in the Schedules hereunto annexed ;—

To the Churchwardens and Overseers of the Poor of the several Parishes comprised in the said Unions ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said Unions are respectively situate ;—

And to all others whom it may concern.

WHEREAS by the Act passed in the Fifth Year of the Reign of King William the Fourth, Chapter Seventy-six, it was, among other things, enacted, that no Rules, Orders, or Regulations of the Poor Law Commissioners, nor any byelaws then in force, or to be thereafter made, should oblige any inmate of any Workhouse to attend any religious service celebrated in a mode contrary to the religious principles of such inmate, nor should authorize the education of any child in a Workhouse in any religious creed other than that professed by the parents or surviving parent of such child, and to which such parents or parent should object, or in the case of an orphan, to which the godfather or godmother of such orphan should object ; and it was also provided that it should and might be lawful for any licensed minister of the religious persuasion of any inmate of such Workhouse, at all times in the day, on the request of such inmate, to visit such Workhouse for the purpose of affording religious assistance to such inmate, and also for the purpose of instructing his child or children in the principles of their religion ;

And whereas by an Order bearing date the Seventeenth day of March One thousand eight hundred and forty-seven, being a General Order, issued to the several Unions mentioned in the First Schedule hereunto annexed, and by various special Orders subsequently issued to the several Unions mentioned in the Second Schedule hereunto annexed, the Poor Law Commissioners and Poor Law Board respectively have ordered and directed that the Master of every Workhouse of the respective Unions shall punctually enter up and accurately keep a certain Book termed the In-door Relief List, in which shall be entered for each Parish of the Union in the form therein numbered 22 (except as regards the Order relating to the Hartlepool Union, wherein such form is numbered 21) the several particulars set forth in the said form :—

And whereas the religious persuasion of each pauper inmate of the Workhouse is one of the particulars set forth in that form ;

And whereas it is desirable that provision should be made for the entry in such column of the religious persuasion of every orphan child whose godfather or godmother does not give information with regard to the religion of such orphan, and that other means should be taken for securing religious instruction to orphans in Workhouses than exist at present ;

Now therefore, We, the Poor Law Board, under the authority of the Statutes in that behalf made and provided, hereby Order and Direct as follows :—

Article I. That whenever there shall be in the Workhouse any orphan child under the age of fourteen years, the Master of the said Workhouse shall enter in such In-door Relief List, as the religious persuasion of such orphan, the religious creed which was professed by the father of such orphan at the time of his death, if the Master know or can ascertain the same by reasonable inquiry, or, if the same cannot be so ascertained, the creed professed by the mother of such orphan at the time of her death, if the same be known to the said Master, or can be by him in like manner ascertained ;

Provided always, that if the godfather or godmother of such orphan shall make any objection, this article shall not have any force or application.

Article II. Such orphan while an inmate of the Workhouse shall not be instructed in any other religious creed than that so entered, unless he or she being above the age of twelve years shall desire to receive instruction in some other creed, and unless he or she be considered by the Poor Law Board to be competent to exercise a reasonable judgment upon the subject.

Article III. The Master of the Workhouse shall, subject to the directions of the Guardians of the Union, take all practicable steps in order to procure the attendance at the Workhouse from time to time, for the purpose of affording religious instruction to such orphan, of some Minister of the religious persuasion of the said orphan as ascertained according to the provisions of this Order, or according to the information of the godfather or godmother ;

Provided always, that such attendance shall take place at such times as shall not be inconsistent with the discipline and good order of the Workhouse.

Article IV. The provisions herein contained applicable to the Master of the Workhouse shall extend to the Matron in cases in which there shall be no Master, or in which he shall be absent, or his office shall be vacant.

RELIGIOUS INSTRUCTION OF ORPHANS IN WORKHOUSES. — LETTER from the POOR LAW BOARD to certain BOARDS OF GUARDIANS on the subject of the preceding Order.

Poor Law Board, Whitehall, S.W.,
1860.

SIR,

I AM directed by the Poor Law Board to acknowledge the receipt of your letter of the _____ in which you forward to them a copy of a resolution passed by the Guardians of the Union on the subject of the Order of the Board of the 23d of August last relating to the religious instruction of orphan children in Workhouses.

The Order above referred to was framed with the view of remedying an omission which was found to exist in the letter of the 19th section of the statute 4 & 5 Will. 4. c. 76., by placing orphan children who had no godfathers and godmothers in the same position as the other children referred to in that section.

The Board have, by Article 2. of the Order in question, merely directed the continued observance of their usual practice in respect of children of a supposed age and intelligence to decide for themselves as to the religion in which they might desire to be educated.

It has hitherto been the practice of the Board to direct an inspector to examine any child so circumstanced in the presence of the Guardians.

In adopting this course the Board have been mainly actuated by the desire of enabling the Guardians to be fully informed of the circumstances of each particular case which may arise, without imposing upon them the necessity of finally deciding upon a question which they might wish to have determined by another authority.

It will be the duty of the Master under Article 3. of the Order to notify to the Guardians the case of any inmate falling within the provisions of the Article; and the Guardians may then in the exercise of their discretion give such directions as may appear to them necessary, bearing in mind the spirit of the 19th section of the 4th and 5th Will. IV. c. 76. and the order of the 23d of August, which may be regarded as supplemental to the section in question.

The Guardians will observe that the Order does not impose any compulsory obligation or duty upon them, that it is permissive in its form and suggestive only of the adoption of a similar line of conduct towards orphan children who have no known or ascertained godfathers and godmothers, to that adopted towards other children differently circumstanced.

Under these circumstances the Poor Law Board are satisfied that the Guardians will, upon further consideration, be of opinion that the Order contains no provision opposed to the spirit of toleration upon which they have hitherto acted, or which is calculated to impose any larger amount of additional trouble upon them in the local administration of the law.

No. 3.

QUALIFICATION OF MEDICAL OFFICERS.—GENERAL ORDER of the POOR LAW BOARD.

To the GUARDIANS of the POOR of the several UNIONS named in the Schedules hereunto annexed ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said several Unions are respectively situate ;—

And to all others whom it may concern.

WHEREAS, by a General Order, bearing date the Twenty-fourth day of July One thousand eight hundred and forty-seven, addressed to the several Unions named in the First Schedule hereunto annexed, and by divers other Orders addressed to the several Unions named in the Second Schedule hereunto annexed, the Poor Law Commissioners and Poor Law Board respectively did prescribe the qualification for the office of Medical Officer in such Unions ;

And whereas by “the Medical Act of 1858” it has been provided, that every person registered under that Act shall be entitled, according to his qualification or qualifications, to practise Medicine or Surgery, or Medicine and Surgery, as the case may be, in any part of Her Majesty’s Dominions ;

And whereas by the said Act it was also provided, that after the First day of January One thousand eight hundred and fifty-nine, which time was extended by an Act of the 22nd Vict. c. 21. to the First day of July last, no person should hold any appointment as a Physician, Surgeon, or other Medical Officer, in any House of Industry, Parochial or Union Workhouse or Poorhouse, Parish, Union, or other public Establishment, Body, or Institution, unless he be registered under the said Medical Act ;

And whereas it is expedient that the regulations relating to the qualification for the office of Medical Officer in the Unions aforesaid should be altered for the future ;

Now therefore, We, the Poor Law Board, acting in pursuance of the powers given in and by the Statutes in that behalf made and provided, hereby rescind, as regards every appointment to be made after the First day of March next, so much of any orders and regulations issued to the Unions specified in the Schedules aforesaid as prescribes the qualification for the office of the Medical Officers thereof.

And We hereby Order as follows :

Art. I. After the said First day of March next, no person shall be qualified to be appointed to the office of Medical Officer under any of the Orders above referred to, unless he shall be registered as aforesaid, and shall be qualified by law to practise both Medicine and Surgery in England and Wales, such qualification being established by the production to the Board of Guardians of a Diploma, Certificate of a Degree, Licence, or other Instrument granted or issued by competent legal authority, in Great Britain or Ireland, testifying to the medical or surgical, or medical and surgical, qualification or qualifications of the Candidate for such office.

Art. II. Evidence that any Candidate was in practice as an Apothecary on the First day of August, One thousand eight hundred and fifteen, shall be taken to be equivalent to a Certificate to practise from the Society of Apothecaries of London.

Art. III. Any person being registered as aforesaid, who shall possess a Warrant or Commission as Surgeon or Assistant Surgeon in Her Majesty's Navy, or as Surgeon or Assistant Surgeon in the service of the Honourable East India Company, dated previous to the First day of August One thousand eight hundred and twenty-six, shall be qualified to be appointed to the office of Medical Officer as aforesaid.

Art. IV. Nothing herein contained shall apply to the regulations contained in the General Order of this Board, bearing date the Twenty-fifth day of May, One thousand eight hundred and fifty-seven, which relate to the appointment or employment in special cases of persons not fully qualified.

QUALIFICATION OF MEDICAL OFFICERS.—CIRCULAR LETTER from the POOR LAW BOARD to BOARDS of GUARDIANS on the preceding Order.

Poor Law Board, Whitehall, S.W.,

SIR,

3d January 1860.

I AM directed by the Poor Law Board to transmit to the Guardians a copy of a General Order which they have issued relative to the qualification of Medical Officers to be hereafter appointed by the Guardians.

The full qualification which has hitherto been required by this Board for such officers has consisted of a competent knowledge of medicine and surgery, and the legal capacity to exercise both those branches of Medical science in England.

The then existing law did not enable any person to practise medicine in England, who did not possess a diploma or licence conferred upon him by some public constituted authority of that country, and consequently the qualification for Medical Officers was specially limited in the General Consolidated Order, in regard to medicine, in the manner prescribed in that Order.

But the alteration in the law effected by “the Medical Act of 1858” has removed the previous restrictions upon persons possessed of qualifications emanating from authorities out of England, and has enabled the persons registered under that Act to practise, according to their respective qualifications, medicine or surgery, or medicine and surgery, in any part of Her Majesty’s dominions.

The Board have therefore deemed it advisable to modify the provisions of the General Consolidated Order, and to enable any person who can establish his qualification to practise both medicine and surgery by the production of proper testimonials, issued by competent legal authority in any part of the United Kingdom, to be a candidate for the office of Medical Officer in the Unions to which the Order is directed.

The terms of the new Order appear to the Board to be sufficiently explicit in themselves to render any detailed explanation unnecessary. The Board think, however, that it will be convenient if they point out to the Guardians the nature of the testimonials which may be submitted to them, and what qualification will be established by such testimonials.

The following list will give the best information which the Board at present possess on the subject :—

Authority granting the Qualification.	Nature of Qualification.
The Royal College of Physicians of London - -	Licence in Medicine.
The Royal College of Physicians of Edinburgh - -	Licence in Medicine.
The Royal College of Surgeons of England - -	Licence in Surgery.
The Royal College of Surgeons of Edinburgh - -	Licence in Surgery.
The Faculty of Physicians and Surgeons of Glasgow	Licence in Surgery.
The Royal College of Surgeons of Ireland - -	Licence in Surgery.
The Society of Apothecaries, London - -	Licence in Medicine.
The University of London - - -	Degree in Medicine.
The University of Edinburgh - - -	Degree in Medicine.
The University of Oxford - - -	Degree in Medicine.
The University of Cambridge - - -	Degree in Medicine.
The University of Glasgow - - -	Degree in Medicine.
	Degree or Licence in Surgery.
The University and King’s College, Aberdeen -	Degree in Medicine.
The Marischal College and University, Aberdeen -	Degree in Medicine.

The Board are aware that this List is not complete ; but they have no adequate information at present as to the nature of the diplomas, degrees, or licences granted by any other Bodies than those just specified. They wish the Guardians, however, to bear in mind that the provisions of the Order are general, and include all diplomas, degrees, or licences “granted or issued by competent legal authority in Great Britain and Ireland,” and they will readily afford the best advice in their power to the Guardians, in any case in which a candidate for the Office of Medical Officer may submit to them testimonials of his qualification to practise medicine or surgery, emanating from any body not enumerated in this Circular.

In this Order the Board have only provided for the complete qualification of the Medical Officer ; and any special cases which may occasionally occur where a fully qualified candidate cannot be obtained must be provided for by the Guardians under the provisions of the General Order bearing date the 25th of May 1857.

It will be observed that the Order will only operate in respect of appointments to be made after the First of March next, and that it does not interfere with the registration of the Officer, which is an additional requisite imposed by the above-mentioned Medical Act of 1858.

I am, &c.

To
The Clerk to the Guardians.

H. FLEMING,
Secretary.

RATING OF TITHES.—CIRCULAR LETTER from the POOR LAW BOARD to the OVERSEERS OF THE POOR.

Poor Law Board, Whitehall, S.W.,
9th May 1859.

GENTLEMEN,

I AM directed by the Poor Law Board to advert to the Circular Letter which they issued, on the 4th of September last, on the subject of the mode of rating the tithe rentcharge, regard being had to the decision of the Court of Queen’s Bench in the cases of “*Q. v. Goodchild*,” “*Q. v. Lamb*,” and “*Q. v. Hawkins* ;” and to state that certain representations having been made to them on the subject of that Circular, they have deemed it advisable to submit it to the consideration of the Law Officers of the Crown, and Mr. Tomlinson, for their opinion.

The Board, having received their opinion upon the Circular, desire to substitute the following observations, in the place of their former communications, for your future guidance in assessing the tithe rentcharge.

It is necessary for you to determine, in the first place, what is *the gross estimated rental of the tithe rentcharge*. As the value of this hereditament depends upon the average prices of corn, and therefore varies from year to year, you must ascertain the amount of the rentcharge as settled for the current year, and from it you must calculate the gross estimated rental.

The opinion of counsel above mentioned, in regard to the term “gross estimated rental” is as follows :—

“We understand by ‘gross estimated rental,’ mentioned in the “schedule to the Parochial Assessment Act, the rent at which the “property might be expected to be let free of tenant’s rates and “taxes and tithe commutation rentcharge, the tenant taking “these burthens upon himself, and we suppose that in practice the “column is usually filled up, so far as regards corporeal heredita-

“ments, with figures expressing or approximating to the conventional
 “or rack rent, on a tenancy from year to year. After making the
 “deduction therefrom of average repairs, &c., the rateable value of
 “such property is arrived at.”

They then proceed as follows with regard to the tithe rentcharge :—

“Applying the liberal analogy prescribed by the judgment in the
 “cases referred to, to incorporeal hereditaments, it appears to us
 “to be inaccurate, where the gross rental of other property is
 “stated in the mode which we have supposed, to treat the amount
 “of the annual rentcharge as the gross estimated rental, and
 “that the figure in the column of ‘gross estimated rental’ should be
 “the amount at which the rentcharge might be let to a tenant,
 “taking upon himself the tenant’s taxes, and all the risks of losses,
 “law expenses, &c. :” and they add—“In fairness to the owner of
 “the tithe rentcharge, we think that his gross rental ought to
 “be stated in a manner analogous to that in which the gross rental
 “of corporeal hereditaments is stated in the same assessment.”

In accordance with the last observation, the Board recommend that in any parish in which, as regards other rateable property, a deduction on account of tenants’ rates and taxes and tithe commutation rentcharge is made previously to filling up the “gross estimated rental” column, an analogous deduction should be made in filling up the gross estimated rental column for the tithe rentcharge. It will, therefore, be right in such cases to deduct at this stage,—

1st. The tenant’s rates and taxes imposed upon the tithe rentcharge, and amongst them the tenant’s property tax, that is, the tax assessed under Schedule B. to the first section of the Income Tax Act (5 & 6 Vict. c. 35.) But the land tax is not to be deducted, nor the sewers rate when it is (as it is generally) a landlord’s tax.

2ndly. All ecclesiastical dues which are payable in respect of the tithe rentcharge—such are synodals, procurations, first fruits and tenths. As regards the last two items, however—namely, first fruits and tenths—inasmuch as where they are paid, they are payable out of the whole of the annual profits of the benefice, a proportionate part only is to be deducted from the annual value of the tithe rentcharge.

3rdly. The cost of collection, which should include the costs of enforcing payment by legal process, and an allowance in respect of the losses which occur by the ultimate nonpayment of the tithe rentcharge. The allowance to be made on the two last-named heads must be estimated by a per-centage, ascertained on the average of a few years taken next before the rate in the particular parish is made.

4thly. As regards the allowance on account of curate’s salary (where it is allowable as a deduction), counsel observe as follows :—

“There may be a doubt whether curates’ salaries, where allowable
 “as a deduction, should be deducted *before* the gross rental is stated,
 “or *afterwards*. According to analogy we are inclined to think
 “that they should be first deducted, and that the gross rental is
 “the rent receivable from a tenant, minus the necessary curates’
 “stipends.”

With reference to the subject of allowance on account of curates’ salaries, and the general head of “Expenses,” for which a deduction is to be made in dealing with the cases above referred to, the Court of Queen’s Bench considered two subjects. One was a claim made by the incumbent in respect of the value of his own personal labour and services. The Court decided that no deduction could be allowed upon this head. The second was a claim for the salary of the curate. Upon this claim no

universal rule was laid down, but the Court decided that in some cases the salary is not, while in others it is, to be allowed. It is *not* to be allowed where the curate is merely a substitute for the incumbent, as “where he is non-resident, or, being resident, from sickness, infirmity, or any less creditable cause, does not perform his own duty personally, but employs another person instead.” It is to be allowed “where from the vast size or population of the parish one man’s labour is entirely insufficient for the duties necessarily to be discharged by the incumbent.”

Where the bishop of the diocese has required, under the statutes giving him the authority, the appointment of a stipendiary curate, and the incumbent performing his duty employs a curate in obedience to such requisition, an allowance is, according to the judgment of the Court, to be made in such case.

So, also, the Court held, that in cases where (the bishop not being legally empowered, or not being called upon to interfere,) the incumbent from a sense of duty appoints a curate, himself devoting all his own time and attention to his cure, a reasonable allowance is to be made in respect of the curate’s stipend.

These rules you must apply in your parish according to the particular circumstances of it. You will readily learn the causes which lead to the employment of the curate, and you must determine how far the curate is in fact a substitute for the incumbent, or an assistant to aid him in the discharge of those duties to which he duly applies his own time and labour.

It was sought, in the argument upon the cases above mentioned, before the Court of Queen’s Bench to obtain an additional allowance in analogy to the profit which is supposed to be allowed in the valuation of the ordinary occupation of farming lands, or the interest which is presumed to be made by a lessee of property which he takes it on a lease. Although the Court held that the owner of the tithe rentcharge is not necessarily entitled to any such deduction in addition to the deductions formerly allowed, the Board consider that it will be best that they should give the actual words of the judgment as pronounced upon this part of the case :—

“The principle, therefore, on which we think the assessment should be made is, that the rentcharge is to be assessed like all other property, according to what it might reasonably be expected to let for from year to year; and in deciding upon such amount the nature of the property is to be regarded, and it is to be considered whether a profit can be looked to or expected, as in the case of farms; and whether in each particular case anything over the expenses for collecting, and the allowances for bad debts and law expenses, would be necessary to induce a tenant to take. In each particular case of the kind this question must be for the persons making the rate, and for the sessions on appeal. It may be that a tenant might willingly take in some cases for less than the amount which, in addition to an allowance for collection, would secure him positively against all risk, bad debts, and law expenses, as the profit of collection itself might be sufficiently remunerative to the party taking, and the other losses might be treated as contingent. It may be that in other cases persons would hesitate to take, with the allowances referred to, without something additional in the way of profits; and we think that this is a question of fact, to be determined according to the circumstances of each particular case, the rule in every case being, that the amount must be ascertained as that at which a tenant might reasonably be expected to take from year to year.”

The gross estimated rental having thus been ascertained by making the deductions above adverted to from the annual amount of the tithe rent-charge, there remains a further deduction to be made in order to arrive at the net rateable value, viz.—*in respect of the annual cost of the repairs of the chancel*, which the Poor Law Commissioners, in their letter of September 1840, stated to be a subject of deduction, and upon which their opinion has not been questioned.

But the Board must again point out that the principle to be kept in view is the maintenance of uniformity and equality as regards the assessment of all the property in a parish. When, therefore, a different rule from that above stated, and one in accordance with the instructional letter issued by the Poor Law Commissioners in June 1837, and with the form of the surveyors' contract in general use, is acted upon in any parish for ascertaining the gross estimated rental of all the property therein, the annual value of the tithe rentcharge appears to constitute the proper measure of the gross estimated rental.

One other subject also came under consideration in the cases referred to, which the Court did not then so completely decide as to leave it altogether free from question. In some parishes districts have been created out of them, in others several parts have been consolidated into chapelries, and in others chapels of ease exist. In these cases the incumbent of the parish frequently pays towards the support of the ministers. His payment may be made voluntarily, and out of his general income. If this be the case in your parish you will not be called upon to allow him any deduction in respect of such payment. But if, under any of the various statutes which apply to the subject, any portion of the tithe rentcharge has been duly assigned to the minister of the new district, or virtually separated from the residue as part of the endowment of such district, the Court stated that the incumbent of the parish is not to be rated in respect of such amount, because it would not be beneficially in his occupation.

The Court added, that "if any one would be rateable for this, it would be not the incumbent of the Parish but the minister of the district church." But the Board have to observe that in this term the Court have decided that where the incumbent of a parish had covenanted to pay a stipend to the minister of a district created under 19 & 20 Vict. c. 104., and had charged the same upon the tithe rentcharge, the minister was not liable to be assessed to the poor rate in respect of such stipend.—See "*Reg. v. Frend*," 33, Law Times, p. 89.

In conclusion, the Board consider that in whatever manner the gross estimated rental be calculated, the net rateable value must be obtained by deducting, from the annual value of the rentcharge for the current year, the following items :—

- A. The annual amount chargeable on the rateable value for tenants' rates and taxes.
- B. An annual average per-centage—
 - (a) for the costs of collection,
 - (b) for legal process, and
 - (c) for losses.
- C. The proportionate charge for the ecclesiastical dues and fees, and an average sum for the annual cost of repairing the chancel.
- D. A reasonable sum for a curate's salary, if in your parish a curate is employed to supply necessary aid to the minister and not as his substitute.

E. The amount payable to the minister of a district, if the parish has been legally divided and the tithes have been actually or virtually severed, and an amount charged upon the living in behalf of such minister.

F. A reasonable sum for a tenant's profit, if, regard being had to the observations upon this point already set forth above, such additional allowance is required to be made in your parish.

The Poor Law Commissioners also stated in their letter of September 1840 that they did not consider that the repayments of the loans advanced to incumbents by the Governors of Queen Anne's Bounty, or other parties, for the rebuilding of residences, could be allowed in estimating the rateable value of the tithe rentcharge. This opinion the Court confirmed.

PAYMENT OF DEBTS INCURRED BY BOARDS OF GUARDIANS.—CIRCULAR LETTER from the POOR LAW BOARD to BOARDS OF GUARDIANS.

*Poor Law Board, Whitehall, S.W.,
12th September 1859.*

SIR,

I AM directed by the Poor Law Board to enclose for your information a copy of the Act (22 & 23 Vict. cap. 49.) which was passed in the last session of Parliament, "to provide for the payment of debts incurred by Boards of Guardians in Unions and Parishes, and Boards of Management in School Districts."

I am, &c.

To
The Clerk to the Guardians.

H. FLEMING,
Secretary.

Anno Vicesimo Secundo & Vicesimo Tertio

VICTORIÆ REGINÆ.

CAP. XLIX.

An Act to provide for the Payment of Debts incurred by Boards of Guardians in Unions and Parishes and Boards of Management in School Districts. [13th August 1859.]

WHEREAS it is expedient to define and limit the period during which any debt hereafter incurred by guardians of unions or parishes or by district boards of management in the administration of the laws for the relief of the poor may be paid, and to make provision, in respect of debts heretofore lawfully incurred by them, for payment of the same: Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present parliament assembled, and by the authority of the same, as follows:

I. With respect to any debt, claim, or demand which may, after the passing of this Act, be lawfully incurred by or become due from the guardians of any union or parish, or the board of management of any school or asylum district, such debt, claim, or demand shall be paid within the half year in which the same shall have been incurred or become due, or within three months after the expiration of such half year, but not afterwards, the commencement of such half year to be reckoned from the time when the last half year's account shall or ought to have been closed according to the order of the Poor Law Commissioners or Poor Law Board: Provided that the Poor Law Board, by their order, may, if they see fit, extend the time within which such payment shall be made for a period not exceeding twelve months after the date of such debt, claim, or demand.

II. With respect to any debt, claim, or demand which may have been lawfully incurred by any such guardians or board of management or on their account before the passing of this Act, they may, if they think proper, pay within twelve months after the passing of this Act, out of the funds in their possession, any such debt, claim, or demand which may have been so incurred or have become due within two years before the date

of this Act, and may, within the said period of twelve months, make provision for the payment of any debt, claim, or demand lawfully incurred as aforesaid which shall have become due from them at some time beyond two years but not beyond six years from such date in full at once, or by equal annual instalments, not exceeding five, if the Poor Law Board, after open and public investigation, during which counsel or solicitors may appear and witnesses may be examined on both sides, when the same shall be required by any ratepayer of the union, parish, or district, shall be satisfied that no fraud, collusion, or neglect of the general rules of the Poor Law Board respecting the contraction or discharge of such debt, claim, or demand have been committed by the party to whom such claim or demand is alleged to be due, and that such party has not been accessory to any fraud on such guardians or board of management, and shall give their consent in manner aforesaid to such payment; and such guardians or board respectively shall charge every such payment to the account to which the same should have been charged if the payment had been made in due time; and the president or secretary of the Poor Law Board shall, within one calendar month after the expiration of such period of twelve months as aforesaid, if parliament be then sitting, or if not, then within one calendar month after the next meeting thereof, lay or cause to be laid before both houses of parliament a return of all such payments as shall have been made or authorized under the power lastly herein-before contained.

III. Where any sum shall have been or shall be borrowed by any guardians or managers, and the debt shall have been or shall be charged by the said guardians upon the poor rates, under the authority of any statute, and the same shall be made payable on a day certain, the time of limitation prescribed by this Act for payment of debts shall commence on that day; where it shall not have been made payable on any day certain, then on the expiration of twelve months from the day when the money was advanced; and in the case of any debt repayable by instalments each instalment shall be payable within one year next after the day when the same shall fall due, unless the said Board shall in any of the cases provided for in this section allow an extension of the time for the payment not exceeding six months; and the interest payable in every case hereby provided for shall be payable within the like times only as the principal.

IV. If any person claiming any debt or demand shall have commenced or shall hereafter commence proceedings in any court of law or equity, or before any justice or other competent authority, within the time herein-before limited, or within the time to which the Poor Law Board may grant extension, and shall with due diligence prosecute such proceedings to judgment or other final settlement of the question, such judgment shall be satisfied by the guardians or managers against whom or against whose officer the same may be brought, notwithstanding that such judgment may be recovered or such final settlement arrived at after the expiration of the period herein-before provided, and all proceedings taken by mandamus or otherwise for the enforcing of such judgment without delay shall be deemed to be within the operation of this section.

V. Where the guardians or managers shall be engaged in a suit, action, or proceedings in any court, they shall not be required by any rule of law or provision herein contained to pay the bill of costs of any solicitor or attorney retained by them for the purpose thereof until the final determination of such suit or proceeding, or until he shall cease to be so retained by or for them therein; but the bill of costs of such solicitor or attorney shall be duly taxed and paid within the term of one year next after such final determination of the said suit, proceeding, or retainer, and not afterwards, unless the Poor Law Board shall authorize an extension of time not exceeding six months; provided that if the said solicitor or attorney take proceedings for the recovery of his bill within such time or the extension thereof, he shall in such case have the same right to be paid as in section four; provided also, that nothing herein contained shall prevent the guardians or managers from paying money at any time on account of the suit or proceeding.

VI. No call or order for contribution made by any guardians, nor any poor rate made to meet such call or order, shall be deemed to be illegal on the ground that the same is made to provide for any debt, claim, or demand, the payment whereof is authorized by this Act, or on the ground that the said call or order for contribution includes a balance due from any parish or parishes at the time when the half-yearly accounts are made up and balanced as aforesaid: Provided always, that when the fund out of which any such debt, claim, or demand should have been discharged shall have been already paid by any parish to the board of guardians of any union, and shall not have been applied for that purpose, any funds which may be required to be again contributed to discharge such debt, claim, or demand shall be levied on each parish in the union in proportion to the rateable value of each such parish.

VII. The words used in this Act shall be construed in like manner as the same words are directed to be construed by the Act of the fourth and fifth years of King William the Fourth, chapter seventy-six, or any subsequent Act amending or explaining the same.

No. 7.

Poor Rate Return.—REMARKS prefixed to the Return made to Parliament of the Poor Rates levied and expended for the Year ended at Lady-day 1859. [No. 208. (D.) Sess. 1859.]

The present Return is the *fifty-second* annual publication of the Poor Rate Returns.

This Return is, in respect of the number of places which it represents, the most complete of the Statistics of pauperism ; for in it the sums levied and expended as Poor Rates throughout the whole of England and Wales are exhibited ; excepting only *five* small Parishes, which are stated by the overseers either to have “No poor,” or to make no levy “yet.”

The number of Parishes maintaining, or liable to maintain their own poor, is printed in the following Table, which relates to the parochial year under consideration :—

Authority.	Description,	Number of Parishes.
Poor Law Amendment Act -	588 unions - - - -	14,052
	22 single parishes - - -	22
Local Acts (various) - -	21 unions - - - -	320
	15 single parishes - - -	15

	2 single parishes - - -	2
43d Elizabeth, cap. 2. - -	88 parishes (including the Scilly Islands, returned as <i>five</i> parishes.)	88
	TOTAL - . -	14,698

England and Wales, is thus represented, in relation to the present Population Poor Rate Return :—

	Population in 1851.
14,693 Parishes <i>returned</i> - - - -	17,906,837
5 Parishes (no poor ; or no levy) - - -	2,733
Extra-parochial places - - - -	18,039
TOTAL - - -	17,927,609

The “Extra-parochial” places were not, heretofore, liable to maintain their own poor ; but they are now becoming Parishes, under the operation of 20 Vict. c. 19. (Extra-parochial Places Act.) The ultimate addition, however, which this will make to the existing Parishes is not at present known.

The net annual value of property assessed to the Poor's Rate has been returned in respect of four parochial years. “The Gross Esti-

mated Rental" is also returned for the last of these years; and it is the first time this information has been obtained.

* The details of these Valuations will be found in the following papers, printed by order of the House of Commons, viz., No. 235 "Real Property," 1842; No. 735 "Poor Rates, &c.," 1848; No. 539 "Poor Rate Assessment," 1852; No. 63 "Population, &c. of Parishes," 1858; and No. 251 "Population, Inhabited Houses, &c.," 1859.

It is satisfactory to observe, that in the course of fifteen years, from 1841 to 1856, the net annnal value of rateable property has increased 9,300,241*l.*, or 14'9 per cent. The yearly rate of increase has been 620,016*l.*, or 1 per cent., very nearly. The rateable value, according to this statement, is 16½ per cent. below the "Gross Estimated Rental."

Receipts and Expenditure in 1857, 1858, and 1859.

The Returns, in a contracted shape, are exhibited in the next Table, for the last three years, with the rate per head, on the estimated population, of the amount levied as Poor's Rate, and of the amount expended in relief:—

Years ended at Lady-day.	RECEIPTS.			EXPENDITURE.			RATE per HEAD.

It was pointed out in the previous return that, while the cost of relief had been falling, the expenditure for "all other purposes" had been rising; a similar remark is applicable to the present case, as it will be observed that between 1859 and 1857 the *decrease* on the former item was 340,067*l.*; the *increase* on the latter, 150,313*l.*

Large proportion of expenditure unconnected with relief.

Four-fifths of the expenditure, described in the last Table as for "All other Purposes," consists of payments which have no connexion whatever with relief to the poor. This part of the Poor Rate Expenditure, which is foreign to the object originally contemplated in the enactment of the rate, has greatly increased since the passing of the Poor Law Amendment Act in 1834, in consequence of the imposition of new and the augmentation of old charges. The next Table exhibits, separately, all the charges referred to, so far as the returns permit. The heaviest item is the disbursement in respect of the

“County, Hundred, or Borough Rate, or Police Rate.” The charge under these heads has nearly *trebled* in twenty-five years.

In 1859 more than *one fourth* of the whole Poor Rates levied was expended for purposes unconnected with relief to the poor. Besides the charges here shown, there are some others which are not discriminated, such as the expenses incurred for sanitary purposes, and the cost for providing new burial grounds.

Principal Charges which constitute Relief to the Poor.

The principal heads of expenditure, which constitute "Relief to the Poor," are shown in the next Table, together with the average price of wheat for the three years. The sums expended for the maintenance of pauper lunatics in asylums and licensed houses was separately returned for 1856-57, for the first time, as 377,659*l.*; in 1857-58 it had risen to 397,826*l.*; and in 1858-59 it had further increased to 413,357*l.*

The column in the Return, which succeeds that of "Total Expenditure," contains the expense of *Medical Relief* only; this consists of salaries to the Medical Officers; extra Medical Fees paid to them under the General Consolidated Order; also, the cost (if any) of medical and surgical appliances, and drugs. The sums in this column are not additional to those given in Column 4. § A, of the Return; because, the various items of Medical Relief are included in sub-columns (e) or (f), as forming a portion of the "Relief to the Poor:" the "Medical Relief" is printed separately, as indicating an important and special subject of Poor Law administration.

The sums expended under this head during the three last years were as follows :

For 1856-57	-	-	-	-	£ 231,623
1857-58	-	-	-	-	230,597
1858-59	-	-	-	-	233,124

Twenty-six Unions and single Parishes, chiefly Metropolitan, are combined into School Districts; the contributions which each Union makes to the treasurer of its district are included in the other items of relief, and, as such, entered in the proper columns of the Poor Rate Return; this, then, like the Medical Relief, does not represent any additional expenditure, having been heretofore properly included in the amounts printed opposite to the respective Unions concerned, at page 24, et seq.*

* See Parliamentary Paper.

The sums contributed by each Union to the School District ; and, the sums expended by each district and for each Union during the parochial year 1858-59, are contained in the subjoined Table :—

IN-MAINTENANCE AND OUT-RELIEF.—REMARKS prefixed to Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Lady-day 1859. [No. 98 (c. 1.) Sess. 1858.]

THE Returns of In-maintenance and Out-door Relief, printed at pp. 18 to 60*, have been received from 645 Unions and single Parishes under Boards of Guardians ; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

Number of Unions returned.

The amount expended in the 645 Unions and Parishes during the half-year was, for—

In-maintenance.	Out-door Relief.	Total.
£ 485,756	£ 1,427,624	£ 1,913,380

The population of the places referred to was 17,669,641, according to the Census of 1851 ; the entire population of England and Wales then being 17,927,609.

The sum expended for irremovable paupers can be shown for 608 Unions and Single Parishes only, as the other places keep no separate account of their disbursements in respect of this class of poor.

Irremovable Paupers.

The 608 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom ; the sum expended in them for relief during the half-year was, in respect of—

	In-maintenance.	Out-door Relief.	TOTAL.
	£	£	£
Irremovable Paupers -	63,666	332,060	395,726

TOTAL - £	382,632	1,326,688	1,709,320

The cost of relief to the Irremovable Paupers was 30·1 per cent. on the cost of relief to the other Paupers during the half-year ; but during the half-year ended at Lady-day 1858, the ratio was 30·8 per cent. ; so that the proportion has fallen 0·7 per cent. during that period.

The following Table is a comparative statement of the Expenditure for the half years ended at Lady-day 1858 and 1859 in 643 Unions and Single Parishes.

relieved.

The paupers relieved on the 1st January, that is, on a day which falls on the middle of the Lady-day half year, are taken as a fair representation of the average number relieved during the time which elapses between the 29th September and 25th March.

1859	643	867,349	86,454	9·0	642	137,418	33,964	19·8

The cost of In-maintenance and Out-door Relief is about 72 per cent. of the entire expense of “Relief to the Poor:” the other items of relief are, “Cost of Lunatics in Asylums;” “Workhouse Loans and Interest;” Salaries and Rations of Officers,” and “other expenses immediately connected with relief.”

IN-MAINTENANCE AND OUT-RELIEF.—REMARKS prefixed to the Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Michaelmas 1859. [No. 208 (c.) Session 1859.]

Number of
Unions re-
turned.

THE Returns of In-maintenance and Out-door Relief, printed at pp. 18-60*, have been received from 646 Unions and single Parishes under Boards of Guardians; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

The amount expended in the 646 Unions and Parishes during the half year was, for—

In-maintenance.		Out-door Relief.		Total.
£ 431,144	- -	£ 1,397,420	- -	£ 1,828,564

The population of the places referred to was 17,670,006, according to the Census of 1851; the entire population of England and Wales then being 17,927,609.

Irremovable
Paupers.

The sum expended for Irremovable Paupers, can be shown for 608 Unions and single Parishes only; as the other places keep no separate account of their disbursements in respect of this class of poor.

The 608 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom; the sum expended in them for relief during the half year was, in respect of—

	In-Maintenance.	Out-Door Relief.	TOTAL.
	£	£	£
Irremovable Paupers -	57,995	324,142	382,137
Other Paupers - -	279,715	970,321	1,250,036
TOTAL -	337,710	1,294,463	1,632,173

The cost of relief to the Irremovable Paupers was 30·1 per cent. on the cost of relief to the other Paupers during the half year; but during the half year ended at Michaelmas 1858, the ratio was 30·5 per cent.; so that the proportion has fallen 0·4 per cent. during that period.

Expen-
diture,
Michaelmas
half years
1858 and
1859.

The following Table is a comparative statement of the expenditure for the half years ended at Michaelmas 1858 and 1859, in 646 Unions and single Parishes.

No. 22.

REMARKS ON THE RETURNS OF PAUPERISM.—SUMMARY of Returns of the Number of Paupers relieved on the 1st July 1859. [No. 208 (B.) Sess. 1859.]

THE present publication contains the Tabulated Returns of 646 Unions and Single Parishes under Boards of Guardians; but in respect of two places, namely, the Incorporation of Shrewsbury and that of Montgomery and Pool, the Returns are limited to the number of in-door paupers relieved.

The only places from which no Returns have been received are the Parishes incorporated under Gilbert's Act, or which are still under the 43rd Elizabeth.

The aggregate population of the 646 places by the Census of 1851 is 17,670,006; estimated to the date of the Returns it is 19,500,000; and the total number of paupers on the 1st July 1859 is,

In-door.	Out-door.	Total.
105,103 - -	711,979 - -	817,082

This gives the proportion of paupers as 1 in 24, or 4·20 per cent. on the estimated population.

Comparing the numbers returned on the 1st July 1859 with those at the same date in 1858, the figures stands thus:—

DATE.	Number of Unions, &c.	In-door Paupers.	Out-door Paupers.	TOTAL.
1st July - { 1858	646	111,503	714,093	825,596
{ 1859	646	105,103	711,979	817,082

The Tables numbered I. to X. relate to 645 Unions and Single Parishes, with a total estimated population of 19,334,000. The return from St. Pancras is excluded, as it does not distinguish the able-bodied from the other paupers in the out-door portion of the return.

The first table exhibits the number of males, females, and children, and the number of vagrants, the latter being returned without distinction of sex, relieved in-door and out-door.

The number of paupers of all classes in receipt of relief on the 1st of July 1858 and 1859, with the decrease, is exhibited in the next Table.

TABLE XI.

D A T E.		Unions and Single Parishes.	Number of Paupers in Receipt of Relief.	Difference.		Difference per Cent.

The number of adult able-bodied paupers on the 1st July 1858 and 1859 is shown by the next Table for 645 Unions; St. Pancras being excluded from this comparison by reason of its return not distinguishing the out-door able-bodied from the other classes of Paupers.

TABLE XII.

It is necessary to observe, with reference to the small decrease recorded in the two last Tables, that many unions included in their statements of the number of paupers relieved on the 1st July 1859, certain classes of paupers which ought to have been included in previous returns, namely, pauper lunatics in asylums and licensed houses, paupers receiving medical relief only, and non-resident paupers.

The Return from St. Pancras does not discriminate the number of Able-bodied Out-door Paupers relieved; it is therefore omitted from this Table.

The term "Adult" has, in the Tables of Pauperism, been always applied to Paupers aged 16 years and upwards.

1st January 1859, arises from the circumstance of those persons chargeable to the Poor Rates and maintained fully returned for the first time.

as compared with July 1858, that many unions included in their statements of the number of paupers relieved pauper lunatics in asylums and licensed houses, paupers receiving medical relief only, and non-resident paupers. The 1st January (or July), and therefore entered in the in-door and out-door totals on that day; also those non-accounts of the unions to which it was chargeable.

No. 30.

WEEKLY RETURNS OF PAUPERISM FOR THE YEAR
ENDING JANUARY 1860, AND FOR THE CORRE-
SPONDING WEEKS OF THE PREVIOUS YEAR.[No. 98. A. XIII. and XIV. Sess. 1858. and No. 208. A. to
A. IX. Sess. 1859.]MEMORANDUM as to the ARRANGEMENT of the WEEKLY RETURNS
of PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1859), the number contained in the two classes was 2·0 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number to the same degree as the other classes of Paupers, and the number of Vagrants relieved by the Unions throughout the country has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are at present 14,714* parishes in England and Wales maintaining or liable to maintain their own poor: returns of pauperism are received weekly in respect of 14,428 of that number; 286 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:—

* Many places not heretofore liable to maintain their own poor are becoming parishes under the operation of the Extra-parochial Places Act; to what extent this will ultimately increase the number of parishes in England and Wales cannot, at present, be stated; since the publication of the Return for December 1858, 56 new parishes have been recorded here.

The following is a Tabular Statement of the Number of Unions and Parishes ; and the Area and Population ascribable to each Division ; but so far only as represented by the Weekly Returns.

LADY-DAY QUARTER.—OBSERVATIONS AS TO THE DECREASE
OF PAUPERISM.

The Return now published completes the Monthly Series for the parochial year ended at Lady-day 1859. The Statistics of Pauperism, given in the Memoranda prefixed to the Return of December 1858, No. 98—(A. XI. 1858), are continued here in a somewhat extended shape; in addition to the General Table for the Kingdom, two others, relating to the Manufacturing and Metropolitan Districts, are given.

The Tables therefore relate to—

1st. ENGLAND and WALES:

2d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS.

3d. THE METROPOLIS.

1. In the Table of the Total Number of Paupers relieved in each consecutive week of the Lady-day quarter, printed below, it will be observed that the numbers rose after the first week of January; that they attained their maximum in the second week of February; and thence continued to fall until the termination of the quarter. The maximum week was only 2·48 per cent. above the first week of the present year; that small ratio measures the increase of pauperism due to the winter, so far as it falls within the Lady-day quarter.

The subjoined is a Comparative Table of Pauperism for the three Lady-day quarters of 1857, 1858, and 1859 respectively. Like the corresponding tabulation for the Christmas quarters this exhibits a decrease in each of its weeks. Noting the greatest decrease in each column, it will be found that in the first week of February last, there were 79,741 fewer paupers on the list than in the corresponding week of 1857; but, that in comparing the numbers with 1858, the greatest decrease fell on the second week of March, when the difference in favour of the last return was 142,425, or 14·20 per cent.

2. The great increase in pauperism, which the returns of the Poor Law Board have shown to exist during a portion of the parochial years 1856-7 and 1857-8, was mainly owing to the commercial disasters of the autumn of 1857; it is therefore of interest to compare the statistics of those divisions which bore the chief pressure; they contain the great seats of our manufacturing industries, and are included, with considerable rural districts, under the VII., VIII., and IX. divisions.

The next Table shows, that, not only have these districts recovered from the distress of 1857, but that they are somewhat better off than they were in the corresponding period of 1856. If the ratios of pauperism were calculated upon the population existing at each period, the favourable position of the manufacturing districts would be more strikingly shown. The increase of population is an element to be considered in minute estimates of pauperism, but it cannot be computed with a sufficient approach to accuracy in these localities.

3. The Metropolis has, for some time past, shown a steady diminution in pauperism ; this is particularly seen in the following Statement, where the Lady-day Quarters of 1858 and 1859 are contrasted with that of 1857. The ratios, however, are those of 1859 alone, calculated upon the data of 1857 and 1858 respectively.

MIDSUMMER QUARTER.—OBSERVATIONS AS TO THE CONTINUED DECREASE
OF PAUPERISM.

The present Return completes the Monthly Series for the Quarter ended at Midsummer 1859. The four following Tables are given here in continuation of those printed in the observations prefixed to the Monthly Returns for June, September, and December 1858; and March 1859.

The Tables are—

1st. ENGLAND and WALES; the pauperism in the consecutive weeks
of the quarter.

2d. ————— the comparative pauperism of the quarter.

3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS; the
comparative pauperism of the quarter.

4th. THE METROPOLIS; the comparative pauperism of the quarter.

1. In the first Table, each week, compared with its predecessor, with one exception, shows a decrease in the number of paupers: 855,753 were the numbers relieved in the last week of March (Lady-day); but in the fourth week of June (Midsummer) they had fallen to 802,307, which is a decrease of 53,446, or 6.2 per cent. less at Midsummer than Lady-day. The population of the places returned was in 1851, 17,652,733; but estimating the increase of the people by the ratio which existed between 1841 and 1851, the numbers are now probably 19,500,000, which gives one person as a pauper in every 24; in other words, there is one pauper to every 23 self-supporting members of the community. This is exclusive of lunatic paupers in asylums and of vagrants; but the addition of these two classes to the total would not materially alter the proportion here given.

TABLE I.—ENGLAND AND WALES.—Consecutive Statement.

Fourth week	- -	802,307	—	2,256

2. The next Table, like the corresponding ones published for the last Christmas and Lady-day quarters, continues to exhibit considerable diminution in the pauperism, on a comparison of 1859 with 1857 and 1858 respectively. The lowest number during the three Midsummer quarters is that entered for the last week of June 1859, namely, 802,307.

3. The following Table, embracing the principal manufacturing districts of the country, exhibits the equally satisfactory result of a decline of pauperism. There is a decrease of nearly 20,000 paupers, comparing Midsummer 1859 and 1858; but the decreases it will be observed were still greater in the earlier weeks of the quarter.

MICHAELMAS QUARTER.—OBSERVATIONS AS TO THE CONTINUED DECREASE OF PAUPERISM.

The present Return completes the Monthly Series for the quarter ended at Michaelmas 1859. The four following Tables are given here in continuation of those printed in the observations prefixed to the Monthly Returns for June, September, and December 1858 ; and March and June 1859.

The Tables are—

- 1st. ENGLAND and WALES ; the pauperism in the consecutive weeks of the quarter.
- 2d. ————— the comparative pauperism of the quarter.
- 3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS ; the comparative pauperism of the quarter.
- 4th. THE METROPOLIS ; the comparative pauperism of the quarter.

1. In the first Table each week, compared with its predecessor, shows, during the months of July and August, a decrease, and during the month of September, a slight increase in the number of paupers : 802,307 were the numbers relieved in the last week of June (Midsummer), but in the fourth week of September (Michaelmas) they had fallen to 783,465, which is a decrease of 18,842, or 2·3 per cent. less at Michaelmas than Midsummer. The population of the places returned was in 1851, 17,652,733 ; but estimating the increase of the people by the ratio which existed between 1841 and 1851 the numbers are now probably 19,500,000, which gives one person as a pauper in every 24 ; in other words, there is one pauper to every 23 self-supporting members of the community. This is exclusive of lunatic paupers in asylums and of vagrants ; but the addition of these two classes to the total would not materially alter the proportion here given.

2. The next Table, like the corresponding ones published for the last Lady-day and Midsummer Quarters, continues to exhibit considerable diminution in the Pauperism, on a comparison of 1859 with 1857 and 1858 respectively. The lowest number during the three Michaelmas quarters is that entered for the last week of August 1859, namely, 778,161.

3. The following Table, embracing the principal manufacturing districts of the country, exhibits the equally satisfactory result of a decline of pauperism. There is a decrease of 14,435 paupers, comparing Michaelmas 1859 and 1858; but the decreases, it will be observed, were still greater in the earlier weeks of the quarter.

CHRISTMAS QUARTER.—OBSERVATIONS AS TO THE CONTINUED DECREASE OF PAUPERISM.

The Return now published completes this portion of the Series for the year 1859. The four following Tables are given in continuation of those prefixed to the monthly publication for September last.

The Tables are—

- 1st. ENGLAND and WALES ; the pauperism in the consecutive weeks of the quarter.
- 2d. ————— the comparative pauperism of the quarter.
- 3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS ; the comparative pauperism of the quarter.
- 4th. THE METROPOLIS ; the comparative pauperism of the quarter.

1. In the first Table, each week is compared with the one immediately preceding it. The last week of the year is higher than the last week of the Michaelmas quarter by 43,308 paupers ; an increase is usual in the winter quarters, and is attributable to the diminution of out-door employment, in consequence of the change in the season.

2. The next Table, like the corresponding ones published for the last three quarters, continues to exhibit considerable diminution in the pauperism, on a comparison of 1859 with 1857 and 1858, respectively.

The paupers in receipt of relief on the last day of the last week of December were —

In 1857	-	-	-	-	-	936,815
„ 1858	-	-	-	-	-	857,903
„ 1859	-	-	-	-	-	826,773

The paupers in 1859, as compared with those in 1858, had decreased 31,130, or 3·63 per cent.; but compared with 1857 they had decreased 110,042, or 11·75 per cent.

3. The third Table comprises the three divisions of England and Wales, in which the principal manufactures are carried on. Taking the returns of paupers relieved on the last day of the last week of December, the numbers were —

In 1857	-	-	-	-	-	258,330
„ 1858	-	-	-	-	-	200,343
„ 1859	-	-	-	-	-	186,401

The decrease in 1859, compared with 1858, was 13,942, or 6·96 per cent. ; but in comparison with 1857 it was 71,929, or 27·84 per cent.

4. The Metropolis still continues to exhibit decreased pauperism, on comparing the numbers with the corresponding weeks of 1857 and 1858, respectively. According to the last returns for the month of December in the three years last past, the numbers were —

In 1857	-	-	-	-	-	101,938
„ 1858	-	-	-	-	-	95,898
„ 1859	-	-	-	-	-	91,665

In 1859 the decrease in the paupers, as compared with those in 1858, was 4,233, or 4·41 per cent. ; but on a comparison with 1857, the diminution was 10,273, or 10·08 per cent.

No. 32.

REMARKS ON THE RETURN OF INSANE PAUPERS, CHARGEABLE ON THE
1st JANUARY 1859. (No. 208. (E.) Sess. 1859.)Source of
Informa-
tion.

1. The Statistics of Pauper Insanity contained in this paper have been compiled from the lists of "Lunatics, Idiots, and other Persons of Unsound Mind," who were chargeable to the Poor Rates on the 1st January 1859. These lists are made out annually by the Clerks to the Guardians and transmitted to the Poor Law Board, in compliance with the 16 & 17 Vict. c. 97. s. 64., and in the form prescribed by Schedule D. of that Statute.

The particulars required by the Schedule are classed under the 15 following heads, viz. :—

- "Name."
- "Age."
- "Sex."
- "Parish to which Chargeable."
- "In a County or Borough Asylum, and what Asylum, and when sent thither."
- "In a Registered Hospital or Licensed House, and where, and when sent thither."
- "In the Workhouse."
- "In Lodgings or Boarded Out, and where and with whom, by name."
- "Residing with Relatives, and where and with whom, by name."
- "Weekly Cost of Maintenance and Clothing."
- "Whether Lunatic or Idiot."
- "Dangerous to himself or others."
- "Of Dirty Habits."
- "For what length of time supposed to be of Unsound Mind."
- "Observations."

Classes of
Insane.

2. Although the heading of the Schedule contemplates *three* classes of Insanity, by the terms "Lunatics, Idiots, and *other Persons of Unsound Mind*;" its Columns are restricted to the two first classes, namely, "Lunatic" and "Idiot." The Returns are, for the most part, made with reference by name to those two classes; but numerous instances occur, in which other terms are employed to indicate, apparently, particular modifications of Insanity.

The following names entered in the lists, under the head of "Whether Lunatic or Idiot," have been observed in the present Returns, viz. :—

Amentia.	Head Affection after Fever.	Maniac.
Cerebral Excitement.	Hypochondriac.	Maniæ Potu.
Chronic Dementia.	Hypochondriasis.	Melancholia.
Chronic Mania.	Idiot.	Mental Weakness.
Congenital Idiocy.	Idiotic Fits.	Monomania.
Delusion.	Idiocy.	Partial Idiocy from Birth.
Demency.	Illusion.	Periodical Mania.
Dementia.	Imbecility, Congenital.	Puerperal Insanity.
Dementia after Paralysis.	Insane.	Recurrent.
Dementia with Epilepsy.	Insanity.	Recurrent Madness.
Dementia with Paralysis.	Insanity, Melancholia.	Semi-Idiot.
Epileptic.	Intermittent Insanity.	Silly.
Epileptic Idiot.	Lunatic.	Simple (from Birth).
Epileptic Mania.	Madness.	Unsound Mind.
Feeble Minded.	Mania.	Weak Intellect.
Fits.	Mania, Sub-acute.	Weak.

3. In tabulating the numbers under "Lunatic," or "Idiot," this classification has been observed. All cases of congenital insanity, under whatever name returned, have been entered as "Idiots;" all the other cases as "Lunatics;" whether the Insanity commenced at a stated age or at an "unknown" age.

Lunatic and Idiot.

4. Returns have been received from 645* Unions and Single Parishes under Boards of Guardians; the Population of these places, according to the Census of 1851, is 17,669,448; but, estimated to the 1st January 1859, it is 19,430,000. The number of Insane Paupers chargeable to the Poor Rates in those places, on that day, is shown below :—

Places re-turned.

Number of Paupers on 1st January 1859.	Whereof were Insane Paupers.	Namely :—	
		Lunatics.	Idiots.
867,543	30,318	21,432	8,886

Thus 3.50 per cent. of the pauperism, on the 1st January last, is ascribable to Insanity; the Lunatics being 2.47 per cent., and the Idiots 1.03 per cent.

5. In regard to the sexes, 13,389 were Males, and 16,929 Females :—

Proportion of the Sexes.

INSANE.	MALES.	FEMALES.	TOTAL.
Lunatics - -	9,280	12,152	21,432
Idiots - -	4,109	4,777	8,886
TOTAL -	13,389	16,929	30,318

It is worthy of remark that, while the Females considerably preponderate among the Lunatics, they do not much exceed the Males among the Idiots. But, taking the two classes together, the ratio of Females to Males is not so great as it is in the Pauperism at large, where, among the Adults, the Female are more than double the number of the Male recipients of relief. The Returns of Pauperism do not distinguish the sexes of the children, but there is no reason to suppose that, if they were discriminated, the proportion would be materially changed.

6. In the next Statement the number of Lunatic and Idiot Paupers are shown for each Division of England and Wales, with the total number of Paupers of all classes relieved on the same day.

Paupers on 1st Jan. 1859.

* Besides these Unions, some places, which do not make the usual Returns of Pauperism to the Poor Law Board, have transmitted lists of Insane Paupers. The total number of Insane Paupers so returned is 98; viz., 75 Lunatics and 23 Idiots; the particulars are printed, with the other Unions, at page 26, et seq. of the Parliamentary Paper.

Residences
of the In-
sane.

10. The 30,318 Insane Paupers were maintained in the following establishments, or were lodged with strangers, or resided with their relatives ; namely —

14,481 in County or Borough Lunatic Asylums.

2,076 in Registered Hospitals, or in Licensed Houses.

7,963 in Union or Parish Workhouses.

906 in Lodgings, or Boarded Out.

4,892 Residing with Relatives.

Of the small number returned as “ In Lodgings, or Boarded Out,” 326, or more than *one third*, are chargeable to Parishes in Wales.

Average
weekly ex-
pense.

11. The average weekly expense of each Insane Pauper, is printed opposite the respective Unions, at page 26, et seq.* But, it is there termed, in conformity to the Schedule the “ Average Weekly Cost of Maintenance and Clothing.” This does not appear, however to be altogether an accurate description of the expenditure. The Cost in County or Borough Asylums may be illustrated from the example of the Chester Asylum, where, according to the 13th Report of the Commissioners in Lunacy, page 112, the weekly charge for Paupers belonging to the County, or to Boroughs in the County, is 8s. 2d. ; for Paupers of other Counties or Boroughs 14s. The Cost to the Asylum is made up thus :—Provisions, 4s. 3d. ; Clothing, 7d. ; Salaries and Wages, 2s. ; Necessaries, 9d. ; Surgery and Dispensary, 1d. ; Wine, Spirits, and Porter, 1d. ; Furniture and Bedding, 5d. ; Garden and Farm, 2d. ; Miscellaneous, 3d. ; Total, 8s. 7d. The charge in Licensed Houses will be made up, it may be presumed, of similar expenses, with some addition as the proprietor’s profit. The charge in Workhouses is the expense of food, clothing, and necessaries, supplied for the in-door Paupers. The sums in the two remaining Columns, are the weekly allowances, made by the Guardians, in respect of the out-door Insane Paupers.

Proportion
of Idiots.

12. The proportion of Idiots to the total number of Insane Paupers is between *one third* and *one fourth*, i. e., 29·3 per cent. for the whole

* See the Parliamentary Paper.

Country. But there is considerable variation from this proportion in different Union Counties, and in different Divisions. In the Metropolis, where it is the lowest, the ratio is 9·5 per cent. ; and in North Wales, where it is highest, it is 52·3 per cent.. The following is a list of the Divisions, arranged according to the greatest proportionate number of Idiots :—

Ratio per cent. of Idiots on Total Number of Insane Paupers.

Welsh - - - -	47·8	Northern - - - -	31·4
North Midland - - -	35·7	Eastern - - - -	30·7

South Western - - -	32·6	North Western - - -	28·2
South Eastern - - -	31·8	The Metropolis - - -	9·5
South Midland - - -	31·8		

In *Twenty-two* Union Counties the ratio *exceeds one third* of the total of Insane Paupers ; namely :—

Ratio per cent. of Idiots on Total Number of Insane Paupers.

North Wales - - -	52·3	Berks - - - -	36·8
South Wales - - -	48·8	Worcester - - - -	36·5

Sussex - - - -	37·2	Lincoln - - - -	33·5

13. The ratio of Lunatics, and of Idiots to the total number of Insane Paupers, is shown in the Statement, at page 278, for each Union-County and Division, as well as the ratio of the Insane to the total number of Paupers. Arranging the Divisions according to the highest proportion of Insane Paupers on the total Pauperism, the following list is obtained :—

Ratio per cent. of Insane to Total Pauperism.

The Metropolis - - -	4·77	South Western - - -	3·07
North Midland - - -	4·21	South Midland - - -	2·97
West Midland - - -	4·07	Northern - - - -	2·92
